PTE 2024 Congress

MILANO, ITALY
May 15th - 18th 2024

ABOUT THE PTE CONGRESS

PRESENTATION LETTER

Dear Sponsors and Exhibitors,

The International Conference for Post-Traumatic Epilepsy (IC-PTE): Roadmap to Prevention will be held from May 15-18, 2024, in Milan, Italy, at the Mario Negri Institute for Pharmacological Research.

The IC-PTE Conference will bring together expertise from the fields of traumatic brain injury (TBI) and epilepsy to develop a cutting-edge action plan that will employ clinical trials to test preventative therapies for PTE, which is a debilitating recurrent seizure disorder that develops after TBI.

Conference sessions will highlight the most promising advances in PTE research, including potential biomarkers of PTE, as well as challenges and solutions within preclinical and clinical PTE research. We will proceed with the objective of understanding gaps in knowledge and opportunities for collaborative steps forward.

The conference will extend over 4 days and includes invited talks by experts in the field, data blitz presentations by early career investigators, poster displays, and in-depth discussion with the goal of identifying next steps towards a clinical trial for the development of preventative therapies for PTE.

We can't wait to see you in Milan. Ciao!

~ Co-Chairs, Drs. Laura Lubbers and Elisa R. Zanier

PTE 2024 Congress

MILANO, ITALY
May 15th - 18th 2024

LOCATION: MILANO

The city of Milan, with its centuries of history and art, is a world-class economic and cultural hub, a capital of business, history, art, fashion, design and culinary delights to suit every taste, budget, and requirement. Its extraordinary aesthetic traditions have been the center for new design projects, recently commissioned by leading architects. The city also enjoys an enviable setting in Lombardy. With enchanting cities filled with art, this Italian region boasts natural parks and splendid lakes - like Como – surrounded by mountains offering many opportunities for conference attendees to explore.

MARIO NEGRI INSTITUTE

Founded in 1963 as a non-profit organisation, the Mario Negri Institute operates in the field of biomedical research.

Three main objectives:

1. Carrying out scientific research projects;
2. Training young people;
3. Disseminating the results of its research at all levels
